

Premier HE

The Myson Premier HE panel radiator is a versatile option for 2-pipe pumped indirect domestic and commercial heating applications. Tested to BS EN 442 standards and marked with BS Kitemark, CE, and UKCA, it guarantees quality and safety. Available in 121 sizes, it supports a maximum operating temperature of 100°C and pressures up to 5.4 bar. Premier HE features a unique round top design, ensuring both style and safety, while providing impressive heat outputs. Ideal for retrofitting, it comes with a 10-year warranty and fits traditional or modern room designs with ease. Install with appropriate air vents and ensure system cleanliness for optimal performance.
