

Decorative Traditional Valves

The Myson Decorative Traditional Valves provide a high-quality, polished chrome manual valve solution ideal for both modern and traditional projects. These valves are available in 15mm sizes with both straight and angled options and feature a durable, highly polished chrome finish. Compatible with compression and pushfit connections, they offer easy manual operation via a wheelhead or lockshield mechanism. The valves are manufactured under ISO 9001:2008 quality management system and conform to BS 2767-10 standards, ensuring reliability and performance. With their elegant design, these valves provide the perfect finishing touch for any high-end residential or boutique commercial project.
