

PETITE

The MYSON PETITE Thermostatic Radiator Valve is a beautifully designed TRV for today's heating systems.

PETTRV10N

The PETITE combines attractive design with total reliability, it also incorporates our 2-way flow technology. The PETITE is available as a single valve or a convenient 'TRV & manual' valve pack (see page 242), in either 10mm or 15mm sizes and finished in a bright nickel. Available in straight and angle versions.

FOR RADIATOR VALVE PACKS
Please see page 242

General specification

CERTIFICATION
Produced under a quality management system - ISO 9001:2008 and complies to EN 215.

OPERATING PRESSURES
Tested to a maximum pressure of 10 bar (compression), 3 bar (pushfit).

GUARANTEE
2 year guarantee from date of purchase against manufacturing defects.

OPERATING TEMPERATURE
Maximum 120°C (compression), 92°C (pushfit).

COLOUR
Finished in nickel.

DELIVERY
2 - 5 working days.

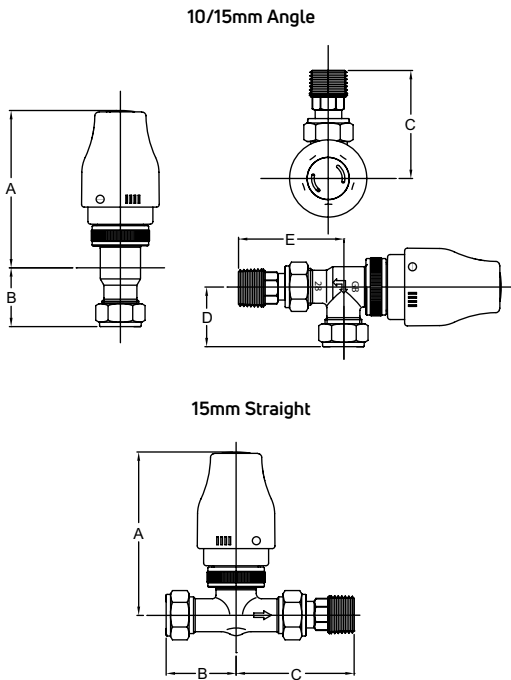

CONNECTIONS
Compression or pushfit.

For more general information, please see page 260.

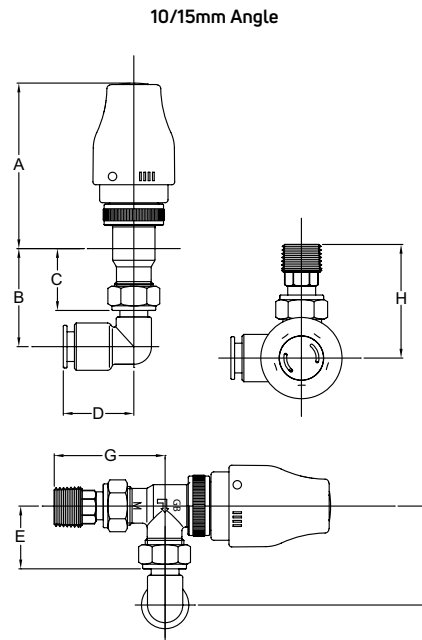

Dimensions

PETITE

Model	A	B	C	D	E
	(mm)	(mm)	(mm)	(mm)	(mm)
10mm Angle	89.0	33.0	61.0	34.0	60.0
15mm Angle	89.0	33.0	61.0	34.0	60.0
15mm Straight	93.0	40.0	67.0	-	-

PETITE Pushfit

Model	A	B	C	D
	(mm)	(mm)	(mm)	(mm)
10mm Angle	89.0	33.0	61.0	30.0
15mm Angle	89.0	39.0	61.0	36.0

Model	E	F	G	H
	(mm)	(mm)	(mm)	(mm)
10mm Angle	34.0	50.0	60.0	61.0
15mm Angle	34.0	56.0	60.0	61.0

NB: All measurements are nominal.

PETITE

Description	Metal Finish	Order Code	Minimum Order Qty
